10th Anniversary Campaign

2005-2015 A Decade of Donating to Snowmaking

From a leaky canvas water tank and used fire hoses to an efficient snowmaking system, the Lapham Peak Snowmaking Project has provided thousands of skiers with reliable manmade snow on which to train, play and race. Thanks to the hundreds of donors raising over \$440,000.

What does manmade snow provide?

- Early snow, late snow
- A playground for youth skiers
- Racing for high school teams and adults
- Lessons for recreational skiers
- Safe skiing for sight-impaired skiers
- Healthy outdoor activity for all ages
- The only snow in some el nino winters
- Camaraderie for skiers

2015 Campaign: Trail Expansion

Help us reach our goal of trail expansion. Please donate now. The more money we have, the further up the hill we can go. If you have enjoyed the manmade snow to date, think of how wonderful it will be to have more trails on which to train, play, or race. Send your donation to:
